

## JL Freight GDP Pharma Transport Policy. (Good Distribution Practice)

All medicines can work properly only if they are stored and transported under the right conditions after manufacture. If the right conditions are not assured, the efficacy of the medicines may be compromised, a shipment may be lost and patients may be endangered. The GDP pharma transport relates to the correct distribution of those medical products. With years of experience in the cold chain transportation, JL Freight knows what the challenges of Pharma Transport are like no other. In order to meet the requirements of their customers and the pharma industry, JL Freight commits to comply with the GDP transport standards and guidelines, and to seeks to provide only premium quality transport services.

### **OUR ENGAGEMENT:**

1. In house Monitoring Center with dispatchers.
2. Emergency procedures in place.
3. Technologically up-to-date equipment in line with EU Guidelines of GDP.
4. Team of trained highly qualified and motivated staff.
5. Quality system - setting out responsibilities, processes and risk management.
6. ATP certified trailers.
7. Clean dry and temperature controlled loading compartments.
8. To prevent the risk of fake or compromised medical products from entering the supply chain.

### **WORKFORCE TRAINING, PROCEDURES & RECORDS:**

- ✓ Training program for: Dispatchers, Drivers and Company staff.
- ✓ Records keeping in accordance with ISO 9001:2015.
- ✓ Trip Check List (TCL).
